DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 3, 2010 has been entered.

Claim Rejections - 35 USC § 112, 1st paragraph

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-3, 5-7, 10 and 12 stand rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The original disclosure still does not appear to provide support for a tooth (i.e., claimed as "a corresponding tooth") that has both a cutting edge (i.e., the claimed cutting edge) and an abutment as now set forth in the claims. Rather, support appears

Art Unit: 3724

to be provided for one tooth (e.g., 4) having a cutting edge (e.g., 10) and a cooperating tooth (e.g., 6) having an abutment (e.g., 15).

Claim Rejections - 35 USC § 112, 2nd paragraph

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-3, 5-7, 10 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 13-14, the recitation "of the first cutting tooth" renders the claim vague and appears to be inaccurate, and it seems that "first" should read --second--.

In claim 2, line 3, the recitation "a row of substantially V-shaped teeth" is vague as to whether it is referring to the teeth set forth in claim 1 or to other such teeth.

Claims Not Rejected Over Prior Art

6. Claims 1-3, 5-7, 10 and 12 are considered to read over the prior art of record because the prior art or record does not teach or suggest the claimed combination of features including a tooth wherein one of the cooperating tooth edges includes both a cutting edge and an abutment as claimed; that is, an abutment is formed in a zone between a tip of the tooth and the cutting edge. However, these claims **cannot** be considered to be "allowable" at this time due to the rejection(s) under 35 U.S.C. 112, 1st paragraph set forth in this Office action. Therefore, upon the claims being rewritten or

Art Unit: 3724

amended to overcome the rejection(s) under 35 U.S.C. 112 set forth in this Office action, further consideration of these claims with respect to the prior art will be necessary.

Response to Arguments

7. Applicant's arguments filed August 3, 2010 have been fully considered but they are not persuasive. In particular, it is respectfully submitted that applicant has not sufficiently addressed the remaining rejection under 35 USC 112, first paragraph, and an explanation of directed to the rejection should be provided.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (571)272-4505. The examiner can normally be reached on Mondays, Tuesdays, Thursdays and Fridays.
